**Personal Renamer is being upgraded, and
now has an official website Please

Many have waited for this release, more specifically for the addition of the
service monitor which has been added to the program in this release. Personal
Renamer has always had the option to monitor a directory and rename files but
with this latest addition users can have Personal Renamer monitor a directory
invisibly the background, and more importantly while logged out. This is a very
powerful and useful addition. Other new features include Undo and the option to
apply saved settings when program starts up.
