Embraco Aspera ERU280HSP is a low temperature hermetic reciprocating compressor using R-134a refrigerant. Embraco compressors are characterized by low energy consumption at maximum performance, as well as a long service life. The kit includes: compressor, start relay, cover, mounting kit. Cooling capacity ASHRAE (Tbp.= -23.3° C Tcond.= 54.4° C) -213 W.

Spécifications techniques	
Lieu de fabrication	Brésil
Alors	Embraco
Type de compresseur	Piston hermétique
Régime de travail	PSL (-23,3°C / +54,4°C)
Puissance du compresseur (Hp)	1/4
Fourniture électrique	220V
Liquide réfrigérant	R134a
Capacité de refroidissement (watts)	190
Type de moteur	1 Marque - RSCR
BIEN.	51330557498ZA
Modèle de compresseur	ERU280HSP
Volume de balayage (cm3/tr)	6,36
Fréquence (Hz)	50
Ligne d'aspiration	1/4"
Ligne de compression	3/16"
