The **Comp HKK95AA** is a compressor designed for refrigeration applications, specifically operating at **220-240V** and **50Hz**, with a capacity of **1/5 HP** (**167W**) and using **R600a refrigerant**. Here are some key details:

- Model: Comp HKK95AA
- Voltage: 220-240V
- Frequency: 50Hz
- **Power:** 1/5 HP (approximately 167W)
- Refrigerant Type: R600a (Isobutane)
- The **Comp HKK95AA** compressor is classified as a **Low Back Pressure** (LBP) compressor. This classification means it is designed for applications that operate at lower pressure differentials, making it suitable for domestic refrigeration systems, such as:
- Household Refrigerators: These typically maintain temperatures between 0°C to 5°C (32°F to 41°F).
- Domestic Freezers: Operating around -18°C (0°F) for effective food preservation.

• LBP compressors are ideal for environments where the cooling load is moderate and consistent, which aligns with the typical usage scenarios for the HKK95AA
