the **105G6731** is a model number for a **tropical compressor** manufactured by Secop, which is part of Danfoss. Here are the key specifications and details related to this compressor:

Specifications

- **Model:** 105G6731
- **Type:** Hermetic compressor
- **Refrigerant:** R134a
- **Voltage:** 220-240V
- **Frequency:** 50 Hz
- **Power Output:** Approximately 1/5 HP (0.91 kW)

- **Approvals:** Complies with EN 60335-2-34 standards

Applications

This compressor is designed for use in various refrigeration applications, particularly in tropical environments where higher ambient temperatures may be encountered. It is suitable for:

- Commercial freezers
- Ice makers
- Air conditioning systems

Performance Characteristics

The 105G6731 operates efficiently under low back pressure conditions and is designed to handle a range of cooling demands. It is noted for its durability and reliability in demanding applications.
