Hello Mbsm Owner!

My name's Eric and for just a second, imagine this...

- Someone does a search and winds up at Mbsm.
- They hang out for a minute to check it out. "I'm interested... but... maybe..."
- And then they hit the back button and check out the other search results instead.
- Bottom line - you got an eyeball, but nothing else to show for it.
- There they go.

This isn't really your fault – it happens a lot – studies show 7 out of 10 visitors to any site disappear without leaving a trace.

But you CAN fix that.

LeadConnect is a software widget that works on your site, ready to capture any visitor's Name, Email address and Phone Number. You'll know right then and there – enabling you to call that lead while they're literally looking over your site.

Visit <https://boltleadgeneration.com> to try out a Live Demo with LeadConnect now to see exactly how it works.

Time is money when it comes to connecting with leads – the difference between contacting someone within 5 minutes versus 30 minutes later can be huge – like 100 times better!

Plus, now that you have their phone number, with our new SMS Text With Lead feature you can automatically start a text (SMS) conversation... so even if you don't close a deal then, you can follow up with text messages for new offers, content links, even just "how you doing?" notes to build a relationship.

Strong stuff.

You could be converting up to 100X more leads today!

Eric

PS: LeadConnect offers a complimentary 14-day trial – you could be converting up to 100x more leads immediately!

It even includes International Long Distance Calling.

Hello Mbsm Owner!

My name's Eric and I just came across your website at Mbsm...

I found it after a quick search, so your SEO's working out...

Content looks pretty good...

One thing's missing though...

A QUICK, EASY way to connect with you NOW.

Because studies show that a web lead like me will only hang out a few seconds – 7 out of 10 disappear almost instantly, Surf Surf Surf... then gone forever.

I have the solution:

Web Visitors Into Leads is a software widget that works on your site, ready to capture any visitor's Name, Email address,

and Phone Number. You'll know immediately they're interested and you can call them directly to TALK with them – literally while they're still on the web looking at your site.

<https://resultleadgeneration.com> to try out a Live Demo with Web Visitors Into Leads now to see exactly how it works and even give it a try... it could be huge for your business.

When targeting leads, you HAVE to act fast – the difference between contacting someone within 5 minutes versus 30 minutes later can be huge – like 100 times better!

That's why you should check out our new SMS Text With Lead feature as well... once you've captured the phone number of the website visitor, you can automatically kick off a text (SMS) conversation with them.

Imagine how powerful this could be – even if they don't take you up on your offer immediately, you can stay in touch with them using text messages to make new offers, provide links to great content, and build your credibility.

Just this alone could be a game changer to make your website even more effective.

Strike when the iron's hot!
