

Stareast International Pty Ltd

HVAC + R Catalogue

Stareast International is a family owned business that has successfully operated in Australia for over 40 years. We supply and sell genuine and generic parts and tools for a wide range of washing machines, refrigeration, electrical stoves, hot water systems and air conditioning for both the domestic and commercial markets.

We provide a package of consistent technical expertise, training assistance and competitive pricing to our customers. Our aim is to give you immediate customer service and a workable solution that will meet you and your client's particular needs.

PROUD SUPPLIERS OF

Fisher & Paykel

This catalogue may not be reproduced in whole or part by any means, including photographically or electronically, without the express written permission of Stareast International Pty Ltd.

Due to Stareast's commitment to quality, product specifications in this catalogue are subject to change without notice. We reserve the right to substitute other products which we have deemed equal in importance to discontinued items. Manufacturers' names and numbers which are referred to in this catalogue are used as a reference only and do not suggest that these components are made by them.

PROFESSIONAL WELDING EQUIPMENT

5522°F. 3050°C.

The smallest autogenous welding system with disposable bottle and cartridge in an elegant space saving metal trolley. Compact and highly effective, the equipment guarantees a professional quality welding. Ideal for the repair of plumbing, air-conditioning and refrigeration systems, the kit includes:

- 1L. 110 Bar OXYGEN bottle
 - MAXY GAS cartridge
- Oxygen pressure regulator and gas tap with flashback arrestors – 2 functions
- 2 mt. Connection hoses with flashback
- Handgrip with adjusting taps and lance

flexible, simple, complete.

Small 'K' & Small 'X' Wall mounted cool room controllers

FLEXIBLE – because the Small 'K' & Small 'X' range can control all solutions required of the EVK-EVCO range.

SIMPLE – because all mechanical and functional features have been optimised to simplify the installation and use of the controllers.

COMPLETE – because further to its protection and safety features is its communication to the monitoring and tele-maintenance system, the most advanced function for cool rooms management.

Small 'K' – In addition to the three keys integrated into the controller, it has a main on/off switch and a switch to control the light in the room/cabinet.

Small 'X' – is equipped with a wide display 20mm high, with multi-coloured back lit functions icons. It also has six keys integrated directly into the front of the electronic panel, allowing complete integrated management of the cabinet. The availability of four live relay outputs allows control of the compressor and the evaporator fan, and defrost by temperature or time. The fourth relay allows management for one of the following uses:

- ✔ Cabinet light
- ✔ Auxillary output
- ✔ Alarm output
- ✔ Door heater
- ✔ Desiccant heater
- ✔ Compressor 2
- ✔ Evaporator valve
- ✔ Defrosting synchronisation

Both models come in a plastic airtight IP65 enclosure box.
