- Model: Lz65CZ
- Refrigerant: R134a
- Voltage: 220-240 V
- Frequency: 50 Hz
- Power: 1/5 HP
- Cooling capacity: 170 W
- COP: 1.25
- Application: LBP
- Evaporating temperature (W): -23.3°C

The L65CZ1 compressor is a reliable and efficient option for use in small refrigeration and air conditioning applications. It is also relatively affordable, making it a good value for the money.

Here are some of the advantages of using the Lz65CZ compressor:

- It is reliable and efficient.
- It is relatively affordable.
- It is easy to install and maintain.
- It is available from a variety of suppliers.

If you are looking for a reliable and efficient compressor for your small refrigeration or air conditioning application, the Lz65CZ is a good option to consider.
